

## Associates in Neurosurgery

### Phillip G. St. Louis, M.D., F.A.C.S.

**ABOUT HIM:** Dr. St. Louis has a particular interest in emerging technologies and techniques in the management of brain tumors and hemorrhages. He also has special expertise in the advanced management of complex spinal disorders utilizing minimally invasive surgical techniques. **WHAT SETS HIS PRACTICE APART:** Our focus is to provide comprehensive neurosurgical care with service and dignity to our patients and their families. We commit to work closely with our referring colleagues and to maintain relations with all support staff who interact with our patients. **INNOVATIONS:** Advancements in image guided minimally invasive endoscopic assisted approaches for treatment of acute brain hemorrhages and complex spinal disorders, resulting in improved patient outcomes and reduced complications. **GREATEST PROFESSIONAL ACHIEVEMENT:** Dr. St. Louis developed a program with Florida Hospital for diagnosis and treatment of patients with normal pressure hydrocephalus. NPH is the only treatable form of dementia. **GREATEST PERSONAL ACHIEVEMENT:** His marriage of 33 years and the raising of three beautiful, professional daughters. **PROFESSIONAL MEMBERSHIPS/AFFILIATIONS:** American Association of Neurological Surgeons; Congress of Neurological Surgeons; AANS/CNS Joint Section on Disorders of the Spine; AANS/CNS Joint Section on Tumors; Society of Critical Care Medicine; Society of Neu-

roOncology. **EDUCATION AND CERTIFICATION:** Board certified in neurosurgery by the American Board of Neurological Surgery; fellow of the American College of Surgeons; fellow of the International College of Surgeons. **HONORS:** William E. Lower Fellowship Thesis prize; James R Smith NAACP Award; Physician Value Award, Excellence, Florida Hospital. **HOBBIES AND INTERESTS:** He enjoys a variety of leisure activities including reading, running, swimming and flats fishing. The doctor and his wife enjoy spending time together and traveling. **CHARITABLE WORK:** He has spent time in West Africa and the Caribbean, providing hands-on care and helping to institute measures for long-term neurosurgical coverage. **MENTORING/STUDENT EDUCATION:** Dr. St. Louis is a faculty member at UCF's new College of Medicine. He has worked with students in learning clinical skills, research protocol design and patient interaction. In addition, he is a member of national organizations that provide mentoring and scholarship opportunities for disadvantaged youth.
